

Your Game Plan: Step-by-Step Guide for Absolute Beginners

STEP 1

PREP FOR BATTLE (Takes 1 minute)

Before you hit Spin, be brutally honest with yourself — this is your foundation.

- **How much money are you playing with today?** (Your session bankroll) → __\$
- **How much do you want to win?** (Your WIN-Stop goal) → Set a realistic target, like **+30%** of your bankroll → __\$
- **How much are you ready to lose?** (Your LOSS-Stop limit) → Decide the point where you walk away — say **-30%** → __\$
- **Calculate your bet:** Divide your session bankroll by 150 — that's your “fuel” for the distance.
→ **Bet size:** __\$ **Examples:** Bankroll \$30 → Bet \$0.20 Bankroll \$75 → Bet \$0.50
- **Check your game:** Is the RTP at least **96%?** Does the **volatility** match your budget?
- **Last question — be honest:** Are you sober? Calm? Ready to follow the plan instead of emotions? If not — **don't start.**

STEP 2

HOW TO PLAY SMART (The “50-Spin Break Rule”)

Don't spin until your balance hits zero. Play in short bursts.

1. After every **50 spins**, take a **pause**.
2. **Check your balance:** Are you up or down?
3. **Evaluate the slot:** Is it “alive”? Do you see small wins, teases, or scatters? Or is it dead silent?

Your moves:

- If the game's alive and losses are small — keep your bet steady.
- If it's dead and draining fast — **don't raise your bet!** Drop it one step lower or switch games.
- If you hit your **WIN-Stop goal** — **STOP. Withdraw some cash. Don't get greedy.**

Repeat this after every 50 spins. Always reassess.

STEP 3

WHEN TO TOUCH YOUR BET?

- If the game's alive and losses are small — keep your bet steady.
- If it's dead and draining fast — **don't raise your bet!** Drop it one step lower or switch games.
- If you hit your **WIN-Stop goal** — **STOP. Withdraw some cash. Don't get greedy.**

Repeat this after every 50 spins. Always reassess.

STEP 4

THE IRON STOP RULES (Non-Negotiable)

- Hit your **WIN-Stop goal** → **STOP.** No “just one more lucky spin.”
- Reach your **LOSS-Stop limit** → **STOP.** No “I'll win it back.” Today's just not your day.
- And the **MAX BET button?** That's your enemy. Don't. Even. Touch. It.
